Internal Microphone (AMD Audio)

Speaker
1 - S24E390 (AMD High Definition)

How you look and sound
Record and play a short video with you. No one else will see it, since it is not saved anywhere.

Start recording

西柚VPN 高效稳定的网络加速器 打开

This screenshot shows the 'Webcam' interface. At the top, there are tabs for 'Webcam', 'Microphone', and 'Headphones', along with 'Feedback' and a 'Take snapshot' button. Below the tabs, there's a section for 'Rotate video', 'Adjusting grid', 'Video effects', and 'Information'. A 'Settings' button is visible. The main area displays a black video feed. A red arrow points to the video feed with the label '异常情况' (Abnormal situation). To the right of the video feed is a 'Settings' panel with options for 'Camera' (OBS Virtual Camera), 'Microphone' (Internal Microphone (AMD Audio)), and 'Speaker' (1 - S24E390 (AMD High Definition)). Below the settings is a section titled 'How you look and sound' with a description: 'Record and play a short video with you. No one else will see it, since it is not saved anywhere.' and a 'Start recording' button. At the bottom, there's a banner for '西柚VPN 高效稳定的网络加速器' (XizhuoVPN Efficient and stable network accelerator) with a '打开' (Open) button.
