

移动端H5播放器按钮变小的问题解决方法

用手机浏览器打开保利威视的视频，有时会出现播放器按钮太小的情况，此时只需在<head>中加入下面这段代码即可解决

<meta name="viewport" content="width=device-width, initial-scale=1, maximum-scale=1,minimum-scale=1,user-scalable=no">。

```
<!DOCTYPE html>
<html>
<head>
  <meta name="viewport" content="width=device-width, initial-scale=1, maximum-scale=1,minimum-scale=1,user-scalable=no">
</head>
<body>
  <script src="//player.polyv.net/script/polyvplayer.min.js"></script>
  <div id="plv_2d939377c23d4b596554ecd3bbf054f2_2"></div>
  <script>
    var player = polyvObject('#plv_2d939377c23d4b596554ecd3bbf054f2_2').videoPlayer({
      'width': '100%',
      'height': '350',
      'vid' : '2d939377c23d4b596554ecd3bbf054f2_2'
    });
  </script>
</body>
</html>
```

修改后

搭建互联网视频应用的成本非常高

00:01 / 02:00

线路

超清
